

Global Diversification Can Make a World of Difference

PERCENT OF WORLD EQUITY MARKET CAPITALIZATION

As of December 31, 2024

The US stock market is the biggest in the world, but investors who ignore other global markets may miss out on a wealth of opportunity.

- Stocks of the roughly 17,700 companies trading outside Canada and the US represent almost 33% of the world's \$135 trillion equity market.
- When determining where to invest, a country's size may not be a primary consideration. Japan, for instance, is relatively small but accounts for 5% of the world's equity market value.
- Global diversification captures returns from companies around the world and can potentially offset a weak market with stronger returns elsewhere.

Investing globally can deliver more reliable outcomes over time.

Canada

- 516 companies
- \$3 trillion
- 3% of world market cap

United States

- 3,450 companies
- \$88 trillion
- 65% of world market cap

Developed ex CA/US

- 5,758 companies
- \$28 trillion
- 21% of world market cap

Emerging

- 10,463 companies
- \$15 trillion
- 11% of world market cap

Other

- 1,459 companies
- \$581 billion
- 0.4% of world market cap

Past performance is not a guarantee of future results. Diversification neither assures a profit nor guarantees against loss in a declining market.

In CAD. Market cap data is free-float adjusted and meets minimum liquidity and listing requirements. Dimensional makes case-by-case determinations about the suitability of investing in each emerging market, making considerations that include local market accessibility, government stability, and property rights before making investments. China A-shares that are available for foreign investors through the Hong Kong Stock Connect program are included in China. 30% foreign ownership limit and 25% inclusion factor are applied to China A-shares. Many nations not displayed. Totals may not equal 100% due to rounding. For educational purposes; should not be used as investment advice. Data provided by Bloomberg.

The US stock market is the biggest in the world based on the free-float adjusted market capitalization.

Commissions, trailing commissions, management fees, and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. Unless otherwise noted, any indicated total rates of return reflect the historical annual compounded total returns, including changes in share or unit value and reinvestment of all dividends or other distributions, and do not take into account sales, redemption, distribution, or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.
