

Happy Birthday!

On January 15, 2022, our Private Pool Fund (CL Disciplined Growth) celebrated its first anniversary. By the same token, we can now share our performance.

As you can see (in the table on the right) our performance is now official and available, which adds to our transparency in terms of information.

Of course, this is the performance of our Private Pool Fund and not your personal accounts. The asset allocation of your portfolios has an impact on your overall return, which may differ from the performance of the Private Pool Fund.

You can now compare our performance to our benchmark and also to that of our competitors. The percentile ranking indicates our ranking relative to other Mutual Funds in our category (North American Equities) according to *Morningstar.ca*.

For example, a percentile rank of 15 indicates that we are in the top 15% of funds in this category. Over the past year, we have been fortunate to be in the top percentile of all North American Equity Funds, i.e. in the top 1%.

Before celebrating, it is important to mention that our goal is not to be the best but to be in the leading pack. While it is rewarding to be in the top percentile, we are looking for stable and consistent performance to avoid extremes.

Thank you for your trust and YES, you are allowed to share this letter.

Happy Winter and Happy Valentine's Day!

Phil
