

# Ternion Wealth Management Dividend Growth Portfolio

December 2025

## TWM Dividend Growth

The Dividend Growth Portfolio offers clients the opportunity to invest primarily in large-cap, publicly traded Canadian dividend-paying common stocks and REITs. Its objective is to deliver steady, long-term returns by focusing on stocks that pay and grow their dividends. This portfolio is suited for investors seeking both income and growth, with a medium to long-term investment horizon, and employs a value-oriented approach. To help safeguard capital during market downturns, the strategy includes raising cash and allocating up to 30% in fixed income securities. Our target is to sustain a cash yield within the 2.5% to 5% range.
