Portfolio Manager's Comments

Our focus on companies with highly visible and steady growth, as well as strong and increasing dividends continued to be rewarded this year with excellent downside protection combined with low volatility.

For 2018, 96% of the companies in the current portfolio increased their dividends.

This translated into good capital preservation in an otherwise difficult year, combined with an average current dividend yield of approximately 3.4%.

We are optimistic that our discipline of quality, value-based stock selection should continue to provide superior risk-adjusted performance for investors.

Who is this Investment for?

This Basket is suitable for investors who:

- want to add a growth component to their portfolio.
- want to receive dividend income.
- are willing to tolerate a moderate level of risk.
