Basket Investment Strategy

The portfolio is invested primarily in low volatility, dividend-paying equities, with a history of dividend growth, in addition to earnings growth. The portfolio's mandate is to be primarily invested in Canada but may also hold some U.S. and International stocks.

Portfolio Manager's Comments

Our focus on companies with highly visible and steady growth, as well as strong and increasing dividends continued to be rewarded this year with excellent downside protection combined with low volatility.

Year to date, 63% of the companies in the current portfolio increased their dividends.

This adds up to solid, risk-adjusted total returns derived from steady growth in our underlying companies combined with an average current dividend yield of approximately 2.3%.

We are optimistic that our discipline of quality, value-based stock selection should continue to provide superior risk-adjusted performance for investors.

Who is this Investment for?

This Basket is suitable for investors who:

- want to add a long-term growth component to their portfolio.
- want to receive dividend income.
- are willing to tolerate a moderate level of risk.
